J. Phatmacol. 426:147-155(2001).

FUNCTION: THIS ALPHA-ADRENERGIC PECEPTOR MEDIATES ITS ACTION BY ASSOCIATION MITH G PROTEINS THAT ACTIVATE A PHOSPHATIDYLINOSITOL CALCIUM SECOND MESSENGER SYSTEM. ITS EFFECT IS MEDIATED BY G(Q) AND G(11) PROTEINS (BY SIMILARITY).

SUBCELLULAR LOCATION: Integral membrane protein.

SIMILAPITY: BELONGS TO FAMILY 1 OF G-PROTEIN COUPLED RECEPTORS.
                                                                                                                           DRYIGVSYPLRYPTIVTQRRGLRALLCLWALSLVISIGPLFGWRQPA-PQDETICQI--N

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            Yamaguchi F., Brenner S.;

"Molecular cloning of 5-hydroxytryptamine (5-HT) type 1 receptor genes from the Japanese puffer fish, Fugu rubripes.";

Gene 191:219-223(1997).

-i- FUNCTION: THIS IS ONE OF THE SEVERAL DIFFERENT RECEPTORS FOR 5-HYDROXYTRYFEMAINE (SEROTONIN), A BIOGENIC HORMONE THAT FUNCTIONS AS A NEUROTRANSMITTER, A HORMONE, AND A MITOGEN. THE ACTIVITY OF THIS RECEPTOR IS MEDIATED BY G PROTEINS THAT INHIBITS ADENYLATE CYCLASE ACTIVITY (BY SIMILARITY).

-i- SUBCELLULAR LOCATION: Integral membrane protein.

-i- SUBCELLULAR LOCATION: TO FAMILY 1 OF G-PROTEIN COUPLED RECEPTORS.

STRONGEST TO THE OTHER 5HT-1 SUBTYPE RECEPTORS.
                                                                                                                                                                                                                                                                                                                                PROSITE; PS00237; G_PROTEIN_RECEP_F1_1; 1.
